Creating a Works Cited page using Easy Bib

Click on the + **New project** button to start your Works Cited page for your *Bless the Beasts and Children* essay.

Create a **title** for this Works Cited page, and select **MLA 8** for this assignment. Also, put a **check mark** in the box next to **Don't recommend my sources to others**. These resources have already been shared with EasyBib. There is no need to inflate these sources within EasyBib.

EasyBib will create a project listing for this assignment. Click on **bibliography** to start your Works Cited page.

The EasyBib	Notebook is be	ing removed July 3	1, 2017. Make sure	you export any work you	wish to save prior I	o this date. Click here to learn h	ow to export your notebook data.

When you click on **bibliography** it will take you to a web page for entering bibliographic information. Make sure MLA 8 is in bold print. If not, then click on MLA 8. Then select what type of document you want to cite. It defaults to **Website**. Since most of sources for this assignment are websites then you can enter the URL in the box, or manually cite your work. The articles titled *Border Patrol* and *The Dance of the Bison and Elk* are database sources.

	There are no citations in your project.	

Today as an example I'm going to use One Green Planet article you read for this assignment. Copy and paste the One Green Planet URL into EasyBib and click the **Cite it** button. EasyBib will list all the sources with the information you entered. Sometimes you will get multiple sources (normally not a problem with websites) and you must select the correct source and click on the **Cite This** button. If your source isn't listed then you will need to manually enter the information by clicking on the **Cite this source manually** link.

Notice EasyBib found some of the information for your works cited page, but it needs your help in locating the rest of the information. Click on the **Continue to the final step** button.

You may have to go back to website to locate the rest of the citation. Many websites don't list their authors, or the article was written by the staff of the website. Also, many publishers are also the name of the website. If you can't locate the information for your citation then ask for help. Sometimes you can't locate all the information for your citation, so leave these areas empty. For this article we were able to locate all the information we needed for our citation. Click on **Create Citation** when done.
